## The industry's leading research platform keeps getting better

### Introducing Library View

Library View is the newest way to view your content and search for your answer on IntelliConnect. With this new view, you will be able to see all of your content for a specific topic **on one page**. For example, you can view a list of all of your "Federal" publications and subscriptions, allowing you to easily filter through your content for the answer you need. And "jump to" links enable you to quickly switch from topic to topic (or from Federal to State to International content, etc.). From each page, you can check the box next to any or all of the publications and run a search, or you can "menu-walk" to a document in a specific publication, such as an explanation in the Standard Federal Tax Reporter — it's up to you.

Library View is another way IntelliConnect provides the flexibility you need to research the way you want!

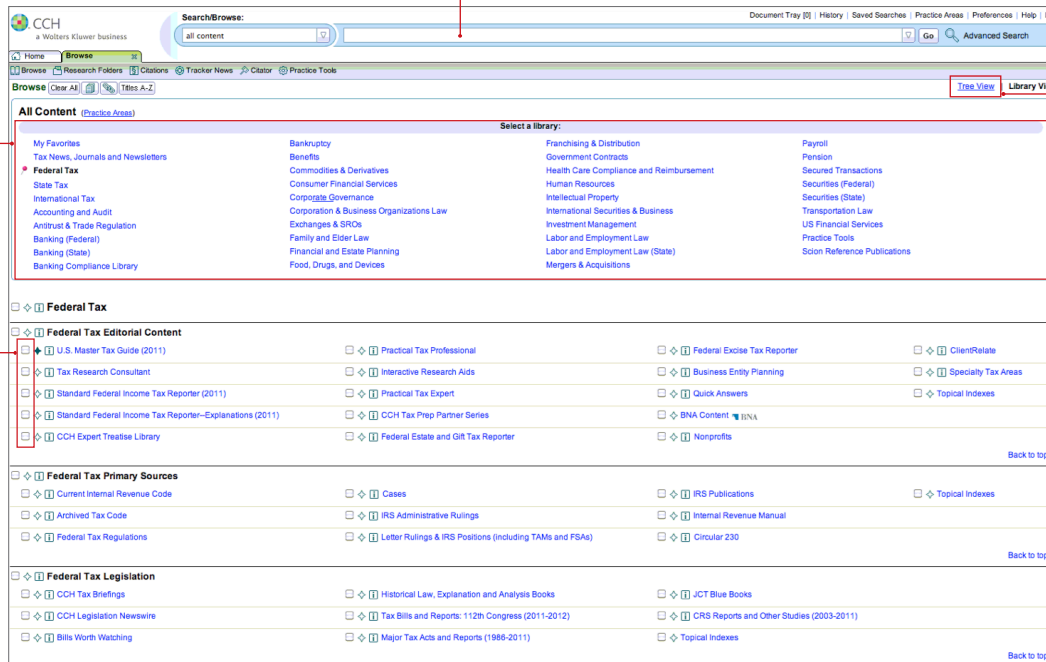

Quickly expand and collapse the Browse Tree with + and - icons.

Explore more of the Browse Tree without manually moving the divider.

Information buttons describe what is contained in each level of the tree and/or publication.

Search for citations right from the search bar.

"Jump to" links enable you to quickly switch from topic to topic.

Check the box next to any or all of the publications and run a search, or you can "menu-walk" to a document in a specific publication, such as an explanation in the Standard Federal Tax Reporter.

Easily switch to another view to see your content grouped by document with our Categorized View or by relevance.

See all of your content for a specific topic on one page with Library View.

Competitors can't match the combined speed of CCH's innovation, the depth and breadth of our content, and the value of our integrated solutions. They can't match the value that CCH solutions deliver.
