

Search Using the Jurisdiction and Document Type Filters

Using the various filters and Related Information links, you can locate explanatory material on your topic quickly and easily, as well as see how other jurisdictions treat the same issue.

- Try a Selected Practice Areas search by typing in a search term at the top of the screen and click Go. Then, in the left pane, narrow your results by Jurisdiction, and select the desired state(s). The resulting list will reflect only the documents in the selected Jurisdiction(s) relating to the searched topic.
- Then, re-filter the list using the Document Type filter, such as Explanations. The resulting list will reflect only the Explanations in the selected Jurisdiction(s) on topic.
- Next, click on and open an explanation from the results list and click on the Related Information - All States link at the top of the Explanation document.
- A new tab will appear and display a list of the same explanations (paragraph numbers) across all of the states that address the researched topic will appear.
